

CMA1390-Y/1610-Y Garment Template Cutting Machine

Clothing template-1

Clothing template-4

Clothing template-2

Clothing template-5

Clothing template-3

Features

1. Light structure & high cutting speed.
2. Following suction system on laser head to take away smoke.
3. Energy-saving exhaust fan saves power with lower noise.
4. High accuracy, high speed motion system ensures smooth cutting.
5. Blade platform is easy for cleaning.
6. Each layer parameter can be set Separately to realize cutting and etching function on template.
7. Garment template design module is embedded in our software, which makes template design easier.
8. SmartCarve4.2 supports graphic formats such as DXF, AI, PLT, DST, DSB etc.

Specification

Power	80W/100W/130W	Cooling method	Water
Wavelength	10.64μm	Weight	310Kg 320Kg/420Kg
Work Area	1300mm×900mm 1600mm×1000mm	Overall dimension	1900mm×1390mm×1170mm 2200mm×1690mm×1175mm
Supply voltage	AC220V±10%	Work environment	Clean, less dust Temp:5~40°C, Humidity:5~80%
Speed	0~30m/min		

Material

Acrylic, Polycarbonate.
