

MF20-E-B Fiber Laser Marking Machine

Energy saving lamp holder marking

Switch marking

Color laser marking in Stainless steel

Electronic components marking

USB laser marking

Features

1. stable frame structure
2. Turntable with high precision and efficiency
3. Easy operation and maintenance
4. Changeable product holder could be customized for varies needs
5. High quality laser beam and good laser spot
6. Metal cover with high level safety
7. Built-in Keyboard, mouse and monitor which help save space
8. Auto-lifting optional makes adjust focus more easy and labor-saving.

Specification

Laser power	10W/20W/30W/50W	Working environment	Clean, less dust Temp:10~ 30°C , Humidity:5~85%
Power supply	AC220±10% 、 50HZ	Graphic	plt,dxf,dst,dsb,ai,bmp,jpg,gif,out,oux, ymd,yln,cut,NC,smc etc
Marking precision	≤±0.02	Dimension	1450mmX950mmX1750mm/belt line (optional) 1500mmX350mmX850mm
Repeated location precision	≤±0.1	Weight	400KG(estimation)
Work area	Max 200mmX200mm/4 station Max 300mmX300mm/2 station	Rotate speed	0.5sec per rotation
Marking speed	0~7000mm/s	Station	2,4,6,8
Total power	<1500W (auxiliary machine excluded)		

Material

Plastics, stainless steel. Alumina and other metal materials surface marking.
